Outline

- General information
- Services (trials)
- Quality analysis
- Machinery
- Internal developments
- Data analysis
- Future projects

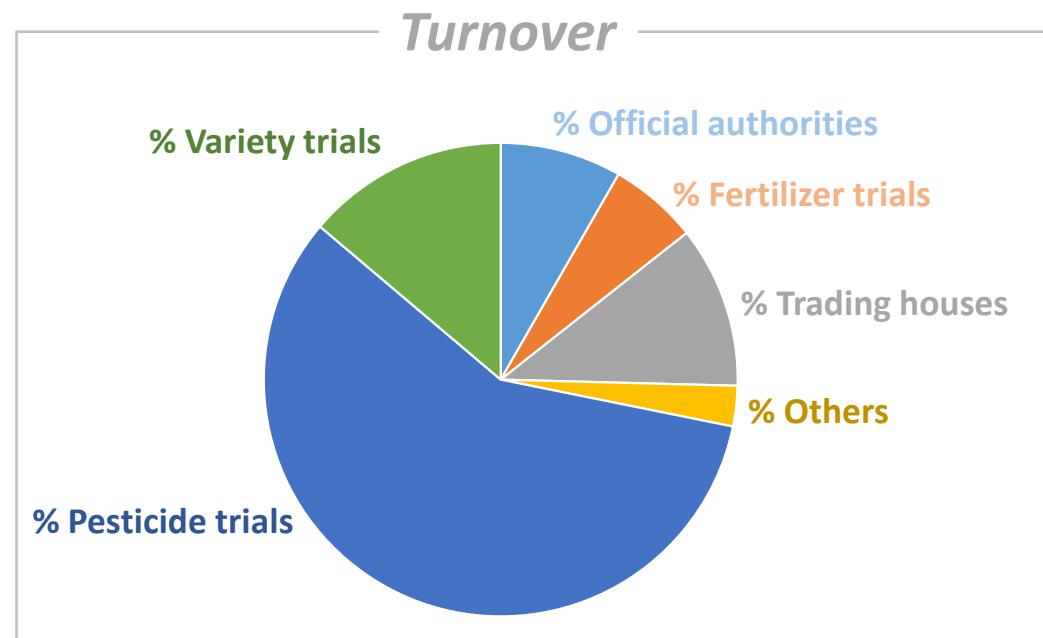

General information I

- Established in 1989 by H.-W. Scherf
- Agrartest is a leading company in agricultural field trial research in Germany
- Certifications
 - **GEP**-certified since 2000
(commission directive 93/71/EEC)
 - **GLP**-certified since 1996
(§ 19b, German chemical law (ChemG))

Deutscher Pflanzenschutzdienst German Plant Protection Service		HESSEN
GEP – Anerkennungsbescheinigung GEP - Recognition Certificate		
Die Versuchseinrichtung mit Hauptstz in	AGRARTEST GmbH D-65326 Aarbergen - Panrod Palmbachstr. 37	The testing facility with headquarter in

Climate in Germany

AGRATEST

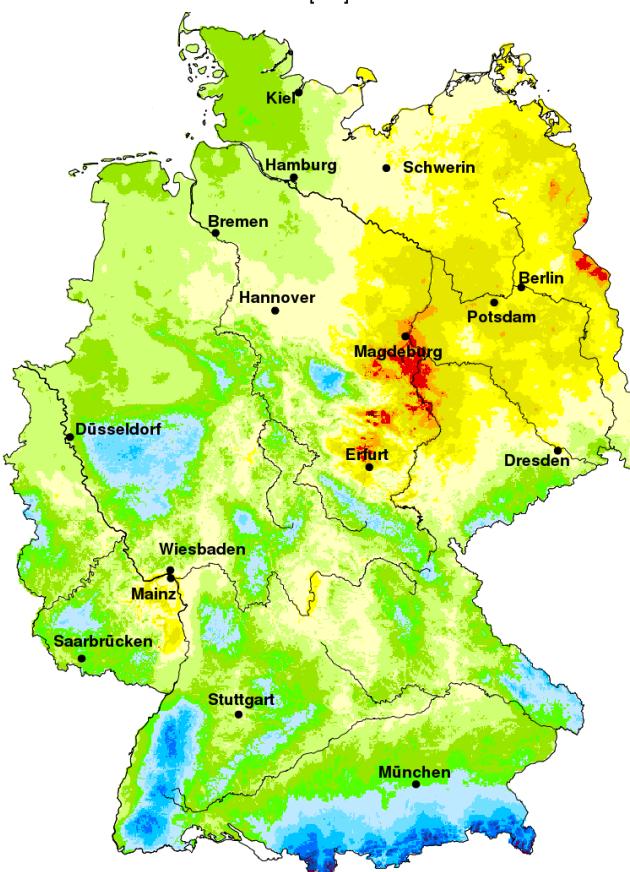

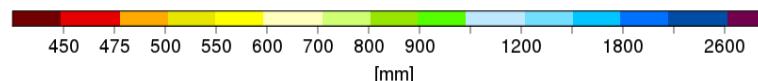

GmbH

Temperature

Precipitation

Annual average 1961-1990

Ø temp. (°C): 8.2

Ø precip. (mm): 800

Last decade:

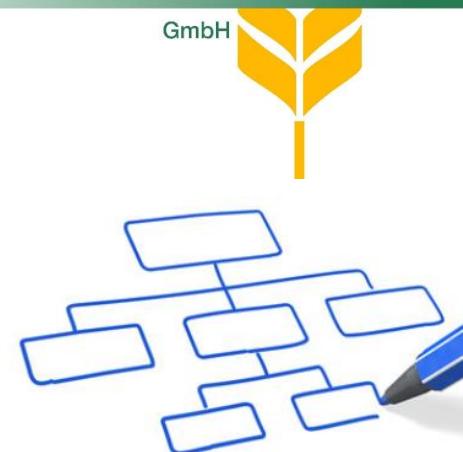

Ø temperature ↑

Dry springs

Warmer winters

Severe rainfall events

Staff

- Agrartest employs 40 people and temporary staff
- 2 – 8 persons per testing facility
- Each testing facility is comprised of team of agricultural-, test engineers and technical assistants and is headed by a team leader
- Responsible persons are designated for the management of different sectors (varieties, fertilization, pest management and GLP)

Our customers

- Agrartest customers are very diverse:
 - Chemical industry
 - Fertilizer industry
 - Plant breeding companies
 - Trading houses
 - Public institutions, universities
- National and international
- Organic and conventional agriculture

Service and expertise: Crops

- ~ 45 species
- Arable crops
- Vegetable crops
- Fruits
- Ornamental plants
- (Fir) Trees
- Grassland and lawns
- Intercropping
- Specials: Viticulture, hops

BDP e. V.

Service and expertise: Trials I

AGRATEST

GmbH

- Trials with all types of PPPs (Plant Protection Products)

- Efficacy & selectivity (GEP)
- Residue studies (GLP)
 - Follow-up crops
 - Processed products (e.g. wine)
- ...

PPP residues in follow-up crops

Service and expertise: Trials II

- Variety trials
- Marketing trials (demonstration)
- Fertilization trials
- Cultivation techniques (irrigation, seed rate)
- Orchard trials
- Small plot studies (development)
- Post-harvest (storage trials)

- Specials:
 - Non-crop trials (ways, places, railway tracks)

AGRATEST

GmbH

Variety trials

Breeder test trials
Cultivation techniques
Performance trials
Demonstration

AGRATEST

GmbH

Variety trials

plot-in-plot technique

Orchard trials

Hops

AGRATEST

GmbH

Additional service: Greenhouse trials

AGRATEST

GmbH

Cages for insecticide trials
e.g. *Drosophila suzukii*

Additional service

- Artificial inoculation trials – Fungi (*Fusarium spp.*)

- Manual sowing of ‘wanted’ weeds

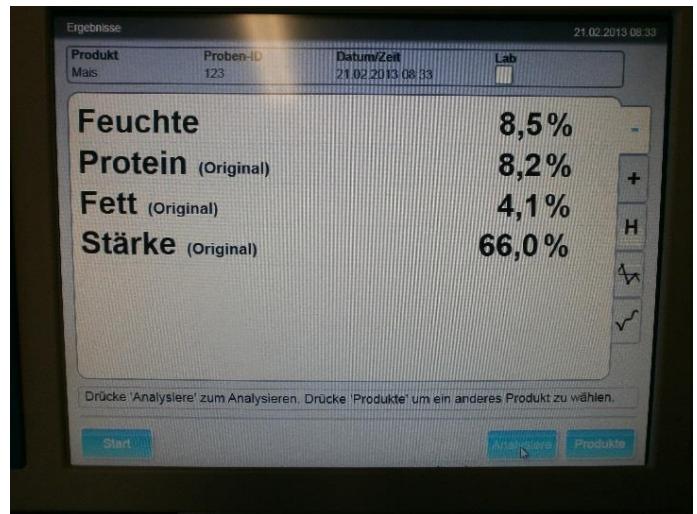

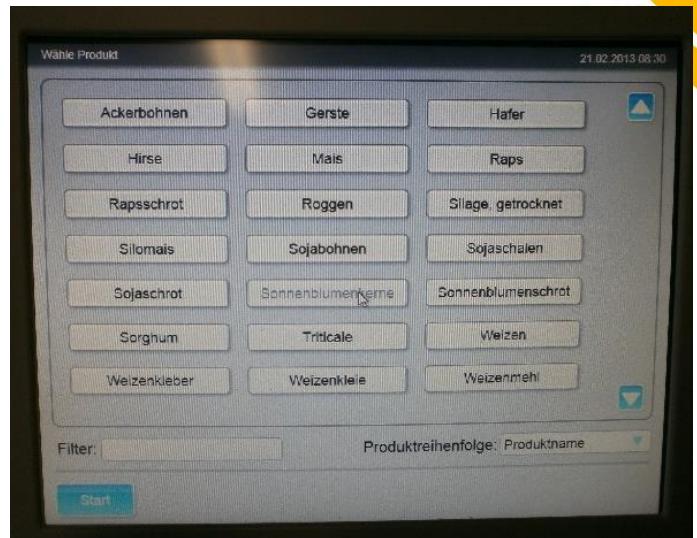

In-house quality analysis

AGRATEST

- Near-infrared spectroscopy
(NIR DA 7250, Perten)

Machinery

- Our machinery consists of:
 - 10 plot seeders
 - 4 corn precision seed drills
 - 1 beet and sunflower seeder
 - 3 vineyard sprayers
 - 20 plot sprayers
 - 11 plot combine harvesters with weighing system, grain tank and straw chopper
 - 2 potato harvesters
 - 2 corn silage cutter
 - 2 plot dividers and diverse special machines

AGRATEST

Combine harvester

AGRATEST

GmbH

Maize harvester

AGRATEST

GmbH

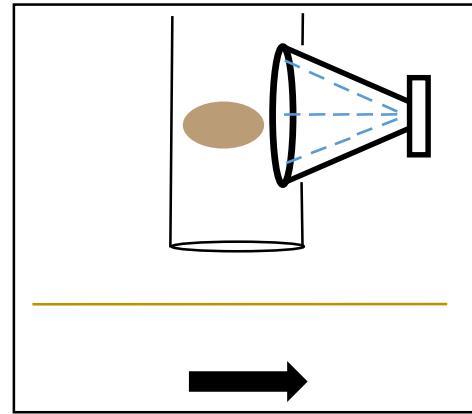

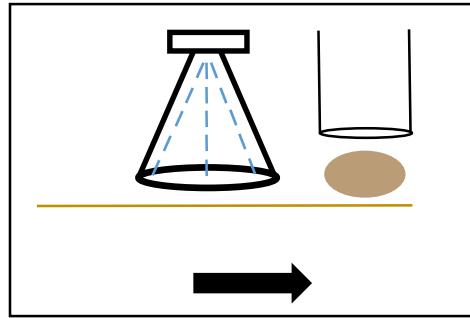

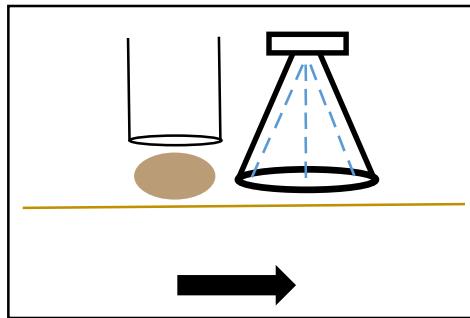

Potato harvester

Techniques: potato treatments

Corn, sugar beet, sunflower:
Underground fertilisation and micro granular fertilisation

Internal developments

- Agrartest develops, produces and markets manually pushed **plot sprayers** ('bicycle sprayers')
- Since 2016, a self-developed **plot fertilizer distributor** is available
- **Railway track sprayers**

Plot sprayer

AGRATEST

GmbH

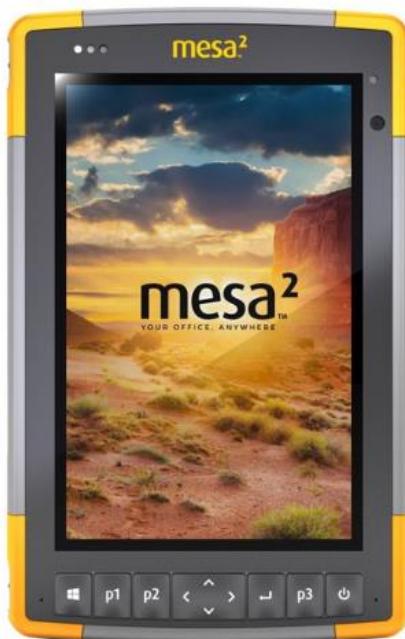

Non-crop trials: Railway tracks

Data management – *on field*

- ‘Outdoor notebooks’
- Voice recognition

Data management and analysis

- ARM software, Gylling Data Management, Inc.:

- “(...) **establishing, managing, and summarizing** of herbicide, insecticide, fungicide, seed/variety, fertilizer (...) single field or greenhouse **trials**.”

- “(...) standard throughout the crop protection industry for managing plant science research data.”

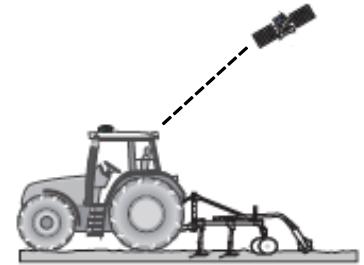

- “(...) statistical analysis.”

Future projects

- Automatic steering systems for tractors
Automatic guidance by satellite navigation signals and sensors

- Automated phenotyping – camera

Thank you for your attention.
